Explora connects children with experiences and daily life. Our activities, exhibits and exhibitions stimulate children's curiosity.

## Made for children

### Suggestion for parents:

- **Respect your children's choices:** repeated and apparently similar actions are important to enhance their developmental potential.

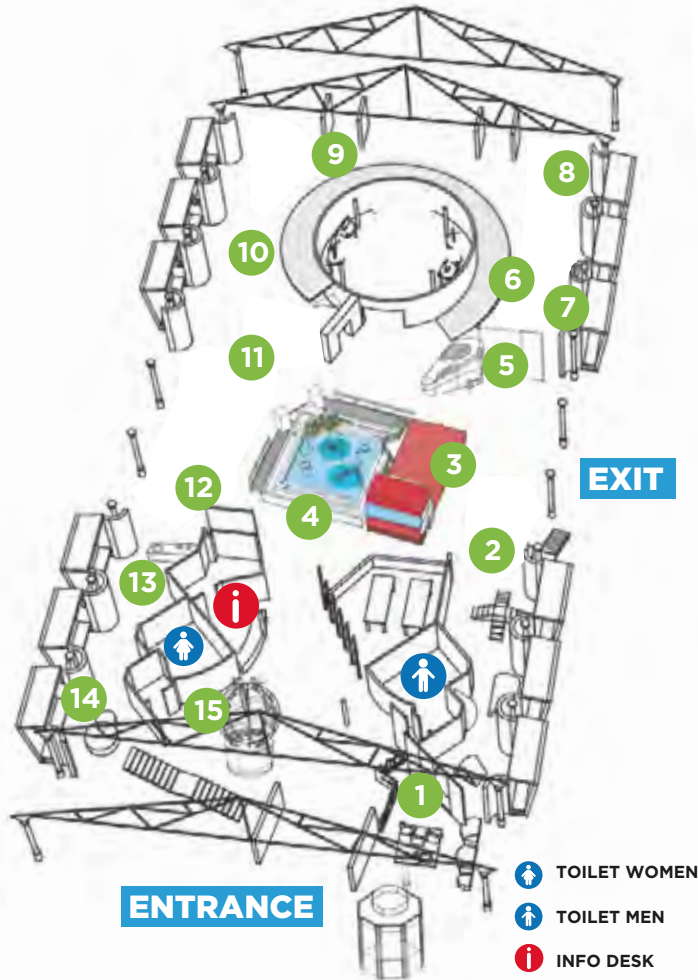

- **Listen and pay attention to your children:** you will focus on their activities and will help them build their competence.

- **Observe your children and how they play.**

- **Stimulate their creativity asking questions or giving simple suggestions:** let them do.

- **Take part in your children's play,** have fun with them and share their feelings without forgetting to give them the suggestions you consider important for their development through play.

## Watch out for symbols!

Show the age suggested or each exhibit or area.

## Where do I start?

We don't have a recommended tour. Choose with your child. If you need help or suggestions ask our staff!

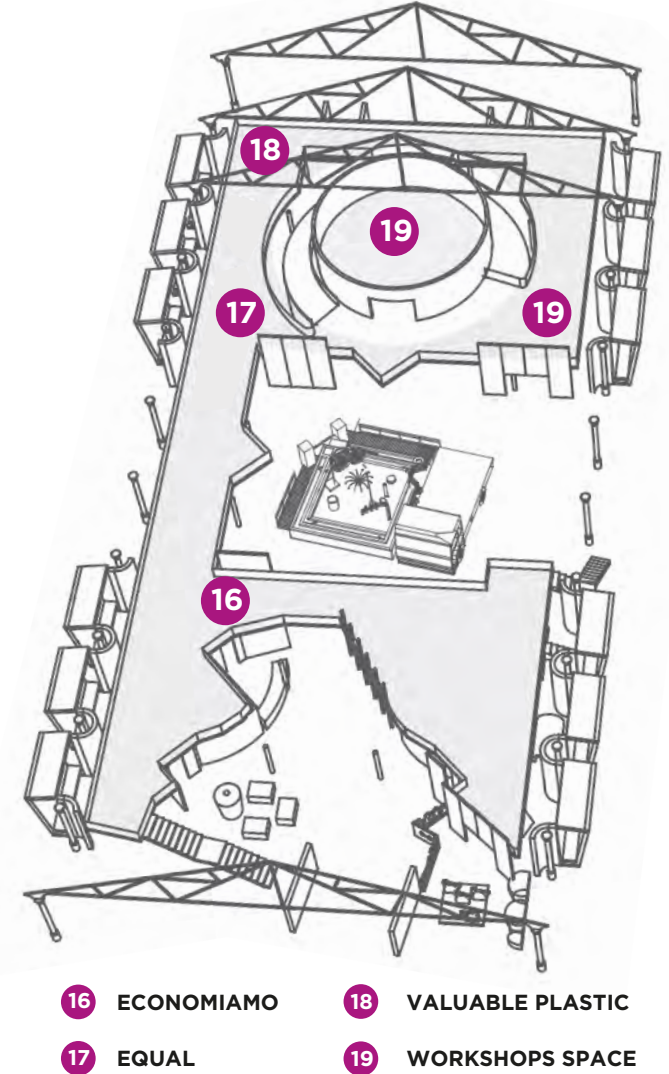

## Free to play!

We offer self-guided visits: your children can freely choose the exhibit to play with, stop there as long as they like and change activity whenever they want to.
