

Support to the “European Researchers' Night” communication campaign

We're glad to be involved in the organization of the event “romescience&comics” as part of the larger initiatives planned for the European Researchers' Night, that will take place on the evenings of Friday 26th of September 2014 and Friday 25th of September 2015.

The aim of both evenings will be the introduction of the role of researchers to the wide audience, and help it appreciate the appeal and the benefits that research brings to society.

Our association focuses on the spreading of culture among the young people.

We are actually 300 associates, our social medias currently have an average of 3000 contacts and our website around 1500 visits per month: we will participate to the communication campaign and we are planning to share on social media images and news from the beginning of September 2014 through to the end of September 2015.

We'll define further on all the detailed modalities of our collaboration, together with the written final agreement.

Kindest Regards

Rome 23/feb/2014
